

This is re: to LPFM vs FM regional/National broadcasters
I listen to K-LOVE as do my 2 children and it is impacting them in a positive way. The rock music genre that is being aired by other stations only serve to incite dis-content, violence, anti-government bias. This station serves to give my family a purpose to keep on pressing on with life..Please continue to allow the national and regional broadcasting in place as it is..
Thank you
